Hello, I'm Ian Cecil Scott and I'm a versatile Composer, Arranger and Orchestrator.

My work mainly focuses on soundtracks ideation, composition and Orchestration, however I also have a long-standing experience in working with a wide range of music styles, from classical and contemporary to pop and rock music. I have a well-rooted experience in working with cinematographic productions, during which I follow the Director step-by-step, starting from the ideation of the project to the realization of a soundtrack tailored on the production and on my client's needs. Also, following the productions I had the occasion to gain experience in several movie-related jobs, holding, between others, the positions of Production Coordinator and Assistant Director.

EDUCATION

-Ph.D candidate: Technological University Dublin (TU Dublin) in Music Composition and Sound Engineering. Research project founded by Irish Research Council (IRC).
